Childers Speaks To 123 T.C. Grads.

Academic integrity, pride in the profession, and personal independence are necessary assets for teachers in meeting the problems of their work, James Saxon Childers, associate editor of the Atlanta Journal, told the graduating class of Georgia Teachers College Monday.

The speaker cited these as he outlined six "bumps" of the teaching profession and how to get over them without "breaking a spring." The problems or bumps, based on his own teaching experience of 18 years, he said, are encountered in relationship with pupils, parents, grading, administration, community, and the teacher's relationship to himself as the most important problem, the one posing the real question: "Why do I want to be a teacher?"

Using the subject "As a Teacher, What Shall I Give and What Shall I Demand?" he attributed many of the pitfalls of the profession to the pressures that come upon teachers. Grades or marks, in this connection, he declared, are "the greatest curse of education."

Mr. Childers, a well-known author, encouraged the prospective teachers not to become too dependent upon their jobs. "Be able to do something else, if necessary," he advised. "Let no one dictate your life as the price of being a teacher."

He stubborn about his salary," he suggested. "Though teaching is the greatest profession, much of the service-and-glory emphasis given it is the talk of science, lighted men, communities, and states."

"Hang the harp of praise on a victory limb," he recommended, "and individually you encounter inadequate financial consideration for your services."

President Zach S. Henderson conferred the bachelor of science degree on 123 students as the college marked its 25th year as a degree-granting institution.

Is Going To Have A

Community Birthday Calendar

Sponsored by Statesboro Lions Club

This will be the most interesting and informative Calendar you have ever seen in your life.

Everyone living in Statesboro and the surrounding area may have their names printed in the Calendar... On the Date on which your birthday falls. Everyone in town will know when your Birthday comes. But it doesn't tell how old you are! And you will know when everyone else has a birthday. The Calendar will also show the Anniversary of the married couples in our Community. It's going to be a lot of fun for everybody.

On the front of the Calendar will appear a scene of Statesboro. There will be 18 ads of local business firms on the Calendar and some will be offering you something Special on your Birthday.

The meeting dates of our local clubs and organizations will be listed. Church and School affairs, programs and Community social events will be listed on the dates they will occur. We'll all know in advance what's going on in town.

Yes, this is going to be something we have needed in Statesboro for a long time.

The Lions Club is going to ask each person to pay 25 cents to have their names listed in the Calendar. It will be printed on the date of your birthday. And each family may buy a calendar for only 50 cents. (Extra Calendars may be ordered to send to sons in the Service, or relatives that live away, who would like to have a Home Town Community Birthday Calendar.) Business firms may buy extras for their office, shop or store.

All the proceeds taken in by the Lions Club on this project, with the exception of the actual cost of printing the Calendars, will be used for aiding needy visually handicapped persons residing in this area.

Within the next few days a member of the Lions Club will be calling at your home to secure the names and birth dates of all of your family. Welcome them when they call. Help us to make this project an outstanding success and to make our Friendly Community even more Friendly.

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks. If you're a truck user, this fact is mighty important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost?

That's why it will pay you to stop in and see us before you buy your next truck.

Bruce Prosser Gets Promotion

KEY WEST, Fla., June 1.—Submarine Bruce Prosser, U.S.N., son of Mr. and Mrs. Ellis J. Prosser, Rt. 1, Statesboro, Ga., has been promoted to yeoman second class.

He is among many sailors of the Atlantic Fleet's submarine force to get a raise in the Navy's first blanket promotion this year.

The advance in rating, which took effect two weeks ago, is the result of a Navy-wide competitive examination held last July. These petty officer examinations are held every six months for all blue jackets.

Prosser, a graduate of Register high school in 1948, enlisted in the Navy in October of that year. He has been serving aboard the submarine Sommet since 1951.

He is the husband of the former Miss Irma J. Gervall of Statesboro, and they presently reside with their daughter in Key West, Fla.

MUNICH, GERMANY.—Sgt. Arnold D. Smith, son of Mr. and Mrs. Robert L. Smith, Statesboro, Ga., recently graduated from the Seventh Army's Non-Commissioned Officers Academy at Munich, Germany.

During the six-week course, he was taught the techniques of combat leadership, including infantry squad tactics and deployment of men and equipment in the field. Students were carefully selected by their organization commanders before attending the school.

Smith, a squad leader in Headquarters and Service Company of the 37th Armored Infantry Battalion, entered the Army in October 1949 and arrived overseas in July 1952.

He graduated from Portia (Ga.) High School in 1949 and was enlisted in the Army in 1950.

He is now a sergeant in the 37th Armored Infantry Battalion, and is serving as a squad leader in Headquarters and Service Company.
